FUN Glitter – gloss and glamour for every day

It began in the colourful world of discotheques with mirror balls. Rotating and lit by coloured spots, the magic mirror balls spread gloss and glamour and made everything and everybody shine like diamonds. Then, the glitter was brought on printed and finished paper, and later on, printing methods were developed that brought glitter effects to a great variety of materials and things.

The fascination of glitter has become an integral part of millions of girls' and women's lives and so, our Fun Glitter writing utensils or erasers are pure magnets and must-haves for all.

FUNny Animals - with a human touch

The world of animals surprises us more and more often. The biggest surprise, however, has certainly been - and dog and cat owners have surely known this for long - the growing awareness that animals resemble humans in many aspects. Animals have feelings, have memories, can remember things, and can solve complicated problems, and they can grieve. Whether monkey, pig, or frog.

As erasers, with hands covering their eyes or making grimaces, they bring fun to our everyday lives. By the way: Many of the animal figures have been exclusively designed for the BRUNNEN FUN collections.

FUN Smile – this smile is for you

Through their use on smart phones, these simple icons have conquered the world. Even after decades, it is hard to imagine short text messages without them. In a very simplistic form, they unmistakably show us happiness, joy, love, fear, friendship, astonishment, or anger. As part of the BRUNNEN FUN collection, they decorate sharpeners, tags, erasers, or stress relief balls. Emojis are a key to success in many aspects, especially to boost sales with these fun articles.
